SAFE BD

NATIONAL DIGITAL SAFETY & EMERGENCY RESPONSE ECOSYSTEM

NATIONWIDE CRIME REDUCTION BLUEPRINT

THE CITIZEN SECURITY REVOLUTION

How SAFE BD Disrupts Bangladesh's Crime History & Crime Rates

Bangladesh's crime deterrence has historically suffered from three fatal bottlenecks: **delayed police intervention**, **fear of harassment while reporting**, and **loss of court-admissible evidence**. SAFE BD eliminates all three through four integrated citizen-protection pillars.

3 Seconds	100%	641 Thanas	-65%
EMERGENCY BROADCAST DELAY	COURT-ADMISSIBLE EVIDENCE	DIRECT POLICE REACH (01320 SERIES)	PROJECTED STREET HARASSMENT & ROBBERY

THE 4 CORE PILLARS ERADICATING STREET IMPUNITY

1. Instant SOS & Covert Cloud Vault

A single tap dispatches live GPS location and blood group to emergency contacts & 999 CAD, while silently capturing tamper-proof audio/video streamed directly to off-device cloud storage.

Crime Impact: Criminals can no longer evade justice by seizing or smashing phones. Slashes emergency response lag from 45+ minutes to minutes.

2. shurokhaAI Thana Directory Chatbot

Emergency directory AI instantly providing direct official contacts for all 641 Thanas (OC, 24/7 Duty Officer, Investigation) on new 01320-series lines with typo-tolerant fuzzy matching.

Crime Impact: Eliminates bureaucratic hurdles and corrupt middlemen. Citizens can reach their local police station leadership in under 5 seconds.

3. Walk With Me Route Companion

Live geofenced route guardian for women, students, and night commuters. Broadcasts real-time journey status and auto-triggers family alerts if route deviates or movement freezes.

Crime Impact: Prevents predatory stalking, roadside abductions, and unmonitored harassment by maintaining an unbroken virtual chain of custody.

4. Live Community Awareness Feed

Verified, real-time safety network where citizens report localized risks, extortion traps, flashpoints, and road hazards with automated moderation and emergency categorization.

Crime Impact: Transforms passive bystanders into an interconnected defense grid. Exposes crime hotspots before offenses can multiply.

HISTORICAL REALITY VS. THE SAFE BD PARADIGM

CRIME DIMENSION	TRADITIONAL BANGLADESH REALITY	WITH SAFE BD DEPLOYED
Street Harassment & Eve-Teasing	Zero physical witnesses; perpetrators flee with impunity.	Covert vault captures faces & audio; community feed warns others.
Robbery & Armed Extortion	Victims silenced; phones smashed to destroy proof.	Tamper-proof evidence syncs off-device before robber touches screen.
Night Transport Abduction	No digital trail; relatives discover danger hours later.	Walk With Me broadcasts live route; deviation triggers alarms instantly.
Police Accessibility & Dispatch	Hunting for outdated numbers; delayed intervention.	Instant 1-tap call to 24/7 Duty Officer and direct 999 CAD integration.

The Ultimate Promise: Drastically Slashing Crimes — Ensuring Every Citizen Feels Safe

By bridging the fatal gap between citizens and immediate law enforcement, **SAFE BD will reduce the amount of crimes drastically across Bangladesh**. Criminals will face unavoidable prosecution through unshakeable digital evidence, while women, students, and families will finally **walk the streets feeling genuinely safe and protected with SAFE BD**.
