OFFICIAL GOVERNMENT PITCH DECK • CONCEPT NOTE & DPP

SAFE BD

National Citizen Safety, Covert SOS & Live Transit Protection Platform

Bridging **50 Million Bangladeshi Citizens** directly to **999 Emergency CAD** and family guardians through automated **Snatch-Proof Video Evidence**, **Live Commute Monitoring**, and **Verified Civic Alerts**.

FOUNDER & CHIEF EXECUTIVE OFFICER

Saad Rizwan

TARGET NATIONAL CAPACITY

10M – 50M Active Citizens

CURRENT PROJECT STATUS

Live Operational Prototype Ready

WHY BANGLADESH NEEDS SAFE BD TODAY

Critical Gaps in Existing Emergency Response

Voice-only helplines and older single-purpose apps leave three dangerous blind spots during real street emergencies:

PROBLEM 01 • PHONE SNATCHING

Voice Calls Fail When Attacked

During muggings, assaults, or abductions, criminals immediately snatch or smash the victim's phone before they can speak to a 999 operator or explain their exact street location.

Result: Zero video evidence and lost location trail.

PROBLEM 02 • NIGHT TRANSIT RISK

Millions Commute Unmonitored

Students, garment workers, and women traveling at night in buses, CNGs, or rickshaws have no automated dead-man timer that alerts 999 if they fail to reach home on time.

Result: Crucial Golden Hour is lost before family notices.

PROBLEM 03 • WHY "JOY (2018)" FAILED

Zero Daily Citizen Engagement

Older apps like the 2018 *Joy (109)* app had no daily utility (no live hazard feed or route companion). Citizens forgot the app existed or uninstalled it before an emergency occurred.

Result: High development cost with minimal public adoption.

3 LIFE-SAVING SYSTEMS IN ONE PLATFORM

How SAFE BD Protects Citizens Every Day

PILLAR 01 • INSTANT EMERGENCY RESPONSE

15s Covert SOS Video Vault

- **1-Tap SOS Dispatch:** Alerts 999 CAD + sends 1-Tap WhatsApp Live GPS link to Father, Mother & Guardian.
- **Snatch-Proof Cloud Recording:** Automatically captures 15 seconds of encrypted MP4 video & audio and uploads it to the Private Cloud Vault.
- **Permanent Proof:** Even if the phone is destroyed, Admin & Police have the attacker's face, voice, and GPS pin.

PILLAR 02 • PREVENTIVE PROTECTION

"Walk With Me" Live Companion

- **Multi-Modal Bangladesh Routing:** Calculates live ETA for Walking, Bike, or Car/CNG with Dhaka traffic modeling.
- **Live Satellite Telemetry:** Streams moving coordinates & speed (`km/h`) to the server.
- **Automated Overdue Escalation:** If a citizen is >10 mins overdue and unresponsive, an **OVERDUE ALERT** flashes on the Admin Command Portal.

PILLAR 03 • DAILY UTILITY & RETENTION

Moderated Civic Safety Feed

- **Daily Engagement:** Citizens open SAFE BD daily to check verified road hazards, fire advisories, and campus safety alerts.
- **100% Rumor-Free Governance:** Every citizen report enters a strict **Admin Moderation Queue** before going live.
- **Verified Authority:** Official announcements carry verified credentials.

PROVEN INTERNATIONALLY • UNIFIED FOR BANGLADESH

How SAFE BD Compares to World-Leading Systems

Developed nations use separate apps for each safety function. **SAFE BD** is the first platform to unify all three for Bangladesh.

PLATFORM & COUNTRY	15S COVERT SOS VIDEO VAULT	"WALK WITH ME" OVERDUE TIMER	MODERATED CIVIC HAZARD FEED	1-TAP WHATSAPP FAMILY GPS
KR **Ansim-i** (Seoul Govt, South Korea)	✓ Yes (CCTV + Phone)	✓ Yes (Safe Return)	✕ No	✕ No
GB **Hollie Guard** (UK Police Approved)	✓ Yes (Cloud Evidence)	✓ Yes (Journey Timer)	✕ No	✕ No
US **Citizen App / Prepared 911** (USA)	✓ Yes (911 Video)	Paid Subscription Only	✓ Yes (10M+ Users)	✕ No
BD **Legacy BD Apps** (Joy 109 / Old 999)	✕ No Auto-Vault	✕ No	✕ No	✕ No
BD **SAFE BD (Proposed National Platform)**	✓ YES (MP4 Cloud Vault)	✓ YES (Auto-Escalation)	✓ YES (Admin Moderated)	✓ YES (Built for BD Families)

Combining South Korea's Ansim-i + UK's Hollie Guard + USA's Citizen into One Sovereign Platform

ENGINEERED FOR 10 MILLION – 50 MILLION USERS

Zero-Crash Cloud & Zero-Trust Security Architecture

1. Citizen Devices
Native iOS/Android App & Web PWA

2. Cloudflare Edge
Enterprise WAF & Layer-7 DDoS Shield

3. BD National Cloud
BDCCL Tier-IV Kubernetes Auto-Scaling

4. PostGIS & S3 Vault
AES-256 Encrypted Geo & Video Storage

5. 999 Command Center
Isolated Domain + YubiKey Hardware Auth

ANTI-HACKER DEFENSE (BGD E-GOV CIRT STANDARD)

Zero-Trust Admin & Data Protection

- **Complete Admin Isolation:** Admin Portal is invisible in public source code and hosted on an isolated private network behind **Zero-Trust VPN**.
- **FIDO2 Hardware Keys (YubiKey):** Admin access requires physical cryptographic hardware keys—100% immune to password phishing.
- **Porichoy NID Verification:** Cryptographic citizen verification without exposing raw NID data.

NATIVE MOBILE APP (PHASE 2 ROLLOUT)

Works Even With Screen Locked or Offline

- **Hardware Power-Button SOS:** Pressing the phone's physical power button 3 times in a pocket triggers covert recording & 999 alert while the screen stays black.
- **Offline SMS Fallback:** If 4G mobile data is unavailable, GPS coordinates are transmitted via encrypted SMS to the 999 short-code.

24/7 NATIONAL RELIABILITY TEAM

Dedicated Engineering & Command Operations Roster

A specialized 16-member technical and operational unit to build, secure, and run SAFE BD 24/7/365:

SPECIALIST ROLE	HEADCOUNT	CORE MISSION & DELIVERABLE
CTO / Principal Systems Architect	**1**	Leads national cloud architecture, 999 CAD technical integration & ICT Division coordination
Senior Backend & Distributed Systems Engineers	**3**	High-concurrency microservices, PostgreSQL/PostGIS spatial engine, Redis & live WebRTC video
Senior Native Mobile Engineers (iOS & Android)	**3**	Builds native iOS/Android apps with lock-screen power-button SOS, background GPS & offline SMS
Frontend & GIS CAD Map Engineers	**2**	Public web platform & real-time 999 Dispatcher live map tracking console
DevOps / SRE, Cybersecurity & QA Engineers	**4**	Kubernetes auto-scaling, Cloudflare WAF, load-testing for 10M+ users & BGD e-Gov CIRT audits
24/7 NOC & Moderation Officers (3 Shifts)	**3**	**Round-the-clock live monitoring of SOS video clips, overdue transit alerts & civic feed approvals**

Total Core Team: 16 Full-Time Specialists Operating Under Executive Leadership

HIGH-ROI PUBLIC SAFETY INVESTMENT

Development (CAPEX) & Annual Operating Budget (OPEX)

PHASE 1: ONE-TIME NATIONAL BUILD (6–8 MONTHS CAPEX)

DELIVERABLE	USD	BDT
Full Engineering Team & Native iOS/Android Apps (8 Mo)	$140,000	৳1.68 Cr
Cybersecurity Red-Team Audit, ISO 27001 & YubiKeys	$20,000	৳24 Lakh
999 CAD Dispatch Workstations & Command Setup	$25,000	৳30 Lakh
Total One-Time Launch Budget	**$185,000**	**৳2.22 Crore**

PHASE 2: ANNUAL OPERATIONS (10M–50M USERS OPEX)

ANNUAL OPERATIONAL ITEM	COMMERCIAL	WITH GOVT SUPPORT
Cloud & Video Vault *(BDCCL Tier-IV NDC)*	৳1.80 Cr/yr	**৳0 (National NDC)**
SMS OTP & Alerts *(BTRC Public Safety Mandate)*	৳90 Lakh/yr	**৳0 (BTRC Mandate)**
Cloudflare Enterprise WAF & GIS Maps API	৳1.10 Cr/yr	৳1.10 Cr/yr
16-Member Engineering & 24/7 NOC Payroll	৳2.40 Cr/yr	৳2.40 Cr/yr
Total Annual Operating Cost	**৳6.20 Cr/yr**	**৳3.50 Crore / yr**

ACTIONABLE PATH TO NATIONAL LAUNCH

Requested Clearances & 6-Month Rollout Roadmap

4 GOVERNMENT APPROVALS REQUESTED

Strategic State Support

- **1. Official Domain & Sovereign Cloud:** Allocation of `safebd.gov.bd` and server capacity inside **BDCCL Tier-IV National Data Center**.
- **2. BTRC Zero-Rated Data Directive:** Allow citizens on GP, Robi, Banglalink & Teletalk to trigger SAFE BD SOS with **0 MB mobile data balance**.
- **3. 999 CAD & Porichoy NID API Access:** Direct webhook integration with National Emergency Service 999 and Election Commission NID gateway.
- **4. Seed Grant / DPP Allocation:** Approval of **৳2.22 Crore (CAPEX)** for native mobile app completion and nationwide launch.

EXECUTION TIMELINE

6-Month National Deployment Plan

- **Months 1–2:** BDCCL Tier-IV Cloud deployment, Porichoy NID & 999 CAD API integration.
- **Months 3–4:** Native iOS & Android app build (Lock-screen Power-Button SOS & Offline SMS fallback).
- **Month 5:** BGD e-Gov CIRT cybersecurity penetration testing & 10M-user stress test.
- **Month 6:** Nationwide public launch across Dhaka, Chattogram & all 64 districts.
